OCTOBER NEWSLETTER

October is our Vaccination Amnesty Month

This month is to help our clients catch up on their pets that are overdue. A discount is given on the annual vaccinations that the pets receive. If you know anyone who is a little behind on vaccinations, mention our amnesty month to them.

Have A Safe And Haunting Halloween...

If your "Trick or Treaters" come home with lots and lots of chocolate candies and snacks – Remember to keep them away from your pets! Chocolate can be very toxic to pets, even in small amounts. Everyone likes to eat chocolate treats, but please don't allow your pets.

Fall = Home Projects Preparing For Winter...

Don't forget about your pets. Where will they stay during the winter months? If your pet cannot come inside, please provide them with some kind of warm shelter away from the wind, rain and snow. Have the whole family get involved – build a dog house or igloo type shelter for them to crawl into. Also provide straw or blankets for warmth. Perhaps a new winter wardrobe is in need for those petite and little pets, start shopping for a new winter coat or sweater. Food and water access are also extremely important during the cold seasons.
Don't let Jack Frost NIP your pet!

October 4-10

National Fire Prevention Week

We are helping honor this week by educating everyone that pets should not be left behind in a fire. When making your safety escape plan with your family, be sure to include who is responsible for getting the pets and where everyone is to meet, safely away from the house. Ask us for a "Please Save Our Pets" sticker for your house to let fireman know.

October 11-17

National Veterinary Technician Week

A Veterinary Technician is just like a nurse. Vet. Techs. can do everything but diagnose problems, prescribe medication or perform surgery. Technicians play an important role in veterinary medicine in assisting the veterinarian to provide adequate care for your pets. A Registered Veterinary Technician earns an Associate Degree which is a two year program at Purdue. Kristie is a Registered Vet Tech and graduated from Purdue in 1994. If you or know someone who is interested in becoming a vet tech, please don't hesitate to ask Kristie about the program!

Cute Lil' Quotes

"There is no psychiatrist in the world like a puppy licking your face." – Ben Williams

Just to keep in mind...

Flea season is still upon us but hopefully the frost will come soon enough to get rid of those little creatures! However, don't forget to continue the heartworm preventative all year long to protect your pets from the intestinal parasites.
